Industry Events on Wednesday, 8 May 2024

13:15-13:30: Industry Pitch

Gemedico GmbH

Tbd.

Forum Beruf / Halle Süd

13:45-14:30: Industry Workshop

contextflow

Assessing disease progression with AI: how deep learning can be used to diagnose and monitor treatment success

Loge 2.2 / Halle Nord, 2. OG

Speaker:

Prof. Georg Langs, MUW, Chief Scientist & Co-Founder contextflow

Deep learning is increasingly used in radiology departments to support the reporting of scans. This talk will present results and algorithms for quantifying lung disease patterns in chest CT scans, tracking them in follow-up examinations and predicting future disease progression based on these measurements. The presentation will illustrate deep learning analysis using real-world examples in the assessment of interstitial lung disease, lung cancer screening and lung nodule assessment.

Industry Events on Thursday, 9 May 2024

12:00-13:00: Industry Symposium

Forum 1.1 / Halle Nord, 1. OG

Guerbet GmbH

Innovation in action: Elucirem™ (gadopiclenol) - the next-generation MRI contrast agent

12:00-12:25: *Elucirem™ - Safety data and case reports from the USA*
Prof. Dr. Lawrence Tanenbaum, RadNet Inc., Los Angeles

12:25-12:50: *Gadopiclenol - Initial clinical experience*
Univ.-Prof. Dr. med. Thorsten Bley, Universitätsklinikum Würzburg

12:50-13:00: Q&A

[Registration here](#)

12:00-13:00: Industry Symposium

Terrassensaal E / Halle Süd, 2. OG

Philips GmbH Market DACH

Hand in hand: AI and humans for the radiology of the future

Moderation and welcome
Dr. Carsten Liess, Philips GmbH Market DACH, Hamburg

12:00-12:20: *The power of artificial intelligence in cardiac imaging with the Philips CT 5300 - Results of the installation in Europe*
PD Dr. med. Hilmar Kühl, St.-Bernhard-Hospital Kamp-Lintfort

12:20-12:45 Uhr: *Easier, faster, better - the benefits of AI in the MRI of the future*
PD Dr. med. Lenhard Pennig, Uniklinik Köln
Cansin Gözdas, Uniklinik Köln

12:45-13:00: *It's all about education*
Sabine Scheibner, Philips GmbH Market DACH, Hamburg

Multimodal imaging in radiology is presented by experienced clinicians. Experts will report from the fields of MR and CT. We will also be presenting our ICARUS training platform for users as one of our solutions for dealing with the shortage of specialised staff.

12:00-14:20: Industry Workshop

Loge 2.1 / Halle Nord, 2. OG

Radiologengruppe 2020 eG

Cybercrime and IT security in radiology: are we ready for the cloud?

Moderation and welcome

Dr. med. Florian Elgeti, RG20, Berlin

12:00-12:20: *IT security on-premise in the medical practice*

Daniel Rolle, S-Communication Services, Berlin

12:20-12:40: *Practice IT in the cloud*

Dominik Wolf, Raiys GmbH, Aschaffenburg

12:40-13:00: Break

13:00-13:20: *IT risk transfer*

Fabian Waller, Head of Multinational and Cyber, Allianz, München

13:20-13:40: *AI and the cloud - doctors and GF as a security risk*

Prof. Dr. Bernd Halbe, DR. HALBE RECHTSANWÄLTE, Köln

13:40-14:10: Discussion

14:10-14:20: Break, Transition to the following workshop by PINK.solutions GmbH & Raiys GmbH

Immerse yourself in the world of IT security and cybersecurity in radiology! Our workshop offers you an in-depth insight into the challenges and solutions faced by radiological facilities. Learn how to protect your patient data and medical devices from digital threats and get practical tips from industry experts. Security is paramount - join us to expand your knowledge and strengthen your organisation.

12:45-13:45: Industry Symposium

Terrassensaal D / Halle Süd, 2. OG

Siemens Healthineers

Flow, pulses and AI: outpatient radiology 4.0

Moderation:

Stefan Kätzlmeier, Siemens Healthineers AG

Speaker:

Prof. Dr. Henrik Michaely, MVZ Radiologie Karlsruhe GbR

13:00-13:45: Industry Workshop

Loge 1.1 / Halle Nord, 1. OG

ulrich medical

Dorina Petersen gives tips for optimised MR imaging

Speaker: Dorina Petersen, Application specialist, trainer, lecturer for CT & MRI, author of specialised books, Eldena

Learn how to achieve even better image diagnostics thanks to protocol optimisation. Dorina explains what you need to know about image interpretation, protocols, visual diagnoses, examination optimisation and contrast agent protocols.

Industry Events on Thursday, 9 May 2024

13:00-14:00: Industry Symposium

Terrassensaal B / Halle Süd, 2. OG

Bayer Vital GmbH

Innovationen bei MR-Kontrastmitteln

Chais:

Prof. Dr. med. Matthias Gutberlet, Helios Herzzentrum Leipzig

Prof. Dr. med. Karl-Titus Hoffmann, Universitätsklinikum Leipzig

13:00-13:20: *Creating evidence: safety and efficacy of the first 1-molar contrast agent*

Prof. Dr. med. Matthias Gutberlet, Helios Herzzentrum Leipzig

13:20-13:40: *Enabling progress: Flexible dosing in CNS imaging - cases from everyday life*

Prof. Dr. med. Karl-Titus Hoffmann, Universitätsklinikum Leipzig

13:40-14:00: *Research and development: Outlook for the future*

Prof. Dr. Hubertus Pietsch, Contrast media research, Bayer AG, Berlin

13:15-14:00: Industry Workshop

Loge 2.2 / Halle Nord, 2. OG

medavis GmbH

Easy going in the booking process: Dreamteam booking4med and InformMe

Referenten:

Celine Weisenburger, medavis GmbH, Karlsruhe

PD Dr. Joshua Gawlitza, InformMe GmbH, München

Maximising efficiency in the registration process in radiology departments is crucial for reducing the workload of specialist staff and enabling smooth patient care. This workshop will demonstrate the interaction of fully digitalised appointment scheduling with information-specific forms - from the data protection declaration to the medical history form. For the patient, this significantly reduces the time spent in the waiting room and therefore also improves the patient experience in radiology centres.

13:15-14:15: Industry Symposium

Forum 1.1 / Halle Nord, 1. OG

Lilly

The increasing importance of radiology in the care of dementia patients

13:15-13:30: *The new S3 guideline on dementia and a look into the future*

Thomas Duning, Klinikum Bremen Ost

13:30-13:45: *Radiological differential diagnosis of dementia*

Prof. Dr. Jennifer Linn, Universitätsklinikum Carl Gustav Carus Dresden

13:45-14:00: *Radiological monitoring of Alzheimer's patients*

Prof. Dr. Dr. Mike P. Wattjes, Medizinische Hochschule Hannover

14:00-14:15: *Panel discussion: Implications for everyday clinical practice*

CRIME SCENE Prostate

Aggressive carcinomas - The really difficult cases

Prof. Dr. Lars Schimmöller, Univeritätsklinikum Düsseldorf
Prof. Dr. med. Jan Philipp Radtke, MBA, Univeritätsklinikum Düsseldorf
Prof. Dr. med. Dirk Blondin, Städtische Kliniken Mönchengladbach

There are cases that push radiologists to their limits as investigators. We present just such cases to you!
Interdisciplinarily prepared with a focus on the things that lead you to the correct diagnosis.

Registration here: <https://tatortprostata.eventbrite.de>

16:00-17:00: Industry Symposium

Forum 1.1 / Halle Nord, 1. OG

Evidia

Evidence and diagnoses from the brain to the heart to the prostate

Heart - Dr. med. Christoph Tillmanns, Diagnostikum Berlin

Prostate - PD Dr. med. habil. Peter Dankerl, Evidia MVZ Radiologie Fürth

Brain - Univ.-Prof. Dr. med. Michael Forsting, Universitätsklinikum Essen

At our panel discussion entitled Evidence and Diagnosis in Snack Format, you can meet renowned Evidia experts, including Prof. Dr Michael Forsting, Dr Christoph Tillmanns and PD Dr Peter Dankerl, and discuss the latest findings on the heart, brain and prostate. Peter Dankerl and take part in this exciting live discussion on the latest findings relating to the heart, brain and prostate.

In addition to a high-calibre discussion, you can expect a pleasant atmosphere in which you can fortify yourself with snacks and drinks. We warmly welcome you to our symposium and look forward to an enriching exchange with you.

medavis GmbH

Efficient collaboration & resource utilisation with teleradiology: opportunities and possible applications

Speakers:

Celine Weisenburger, medavis GmbH, Karlsruhe

Ehsan Esmaili, medavis GmbH, Karlsruhe

Do you want to successfully overcome the challenges of resource scarcity and collaboration across locations? This includes working with colleagues at different locations as well as tapping into new financial opportunities for your organisation. We will show you new perspectives and solutions for effective implementation in your day-to-day work in order to increase efficiency and optimise cooperation.

Industry Events on Friday, 10 May 2024

12:00-13:00: Industry Symposium

Terrassensaal E / Halle Süd, 2. OG

Eisai GmbH

The role of radiology in the diagnosis and treatment of Alzheimer's disease today and in the future

12:00-12:20: *Dementia diagnostics status quo: what role does imaging play?*

Prof. Dr. Dr. Mike P. Wattjes, Medizinische Hochschule Hannover

12:20-12:40: *Therapy of Alzheimer's disease: what is the neuroradiological contribution to therapy monitoring?*

Prof. Dr. Achim Gass, Universitätsmedizin Mannheim

12:40-13:00: *Neurology & radiology in dialogue - opportunities and limitations of Alzheimer's diagnostics and therapy monitoring*

Prof. Dr. Achim Gass, Universitätsmedizin Mannheim

Prof. Dr. Dr. Mike P. Wattjes, Medizinische Hochschule Hannover

We are ready for the future. Are you too?

At Eisai, we have been researching Alzheimer's disease for decades. Our stated aim is to offer holistic and preventative approaches that support patients on their journey with Alzheimer's disease.

Approaches that make a real difference to the lives of those affected, their families and carers. Approaches that can help to change the face of Alzheimer's disease as we know it.

12:15-13:15: Industry Symposium

Terrassensaal C / Halle Süd, 2. OG

GE HealthCare

Innovations in cardio-diagnostics

Moderation:

Prof. Dr. Mathias Goyen, CMO GE HealthCare, München

12:15-12:35: *High-end cardio-CT - when challenging patients are part of everyday life*

PD Dr. Lukas Lehmkühl, RÖHN-KLINIKUM Campus Bad Neustadt

12:35-12:55: *AI-based image quality and high-speed cardio MRI*

Dr. Christopher Ahlers, radiomed Wiesbaden

12:55-13:15: *Cardiac stress MRI in clinical application: strategies and practical implementation*

PD Dr. Andreas Rolf, Kerckhoff-Klinik Bad Nauheim

12:30-14:00: MTR Symposium

Forum 1.1 / Halle Nord, 1. OG

Siemens Healthineers

MTR in focus - Radiology in transition

Under the general theme of "MTR in focus - radiology in transition", this year we would like to discuss with you the opportunities and challenges that new technologies bring with them. There will be plenty of room for networking in a relaxed atmosphere with light snacks and drinks. You can look forward to impulses from external and internal speakers and first-hand experience reports - from MTR for MTR. Due to a limited number of guests, participation is only possible after prior registration on the Siemens Healthineers website.
